The Honorable William K. Reilly
Administrator
Environmental Protection Agency
401 M Street SW
Washington, DC 20460

6

Dear Mr. Reilly:

It has come to my attention that the Environmental Protection Agency is in the process of reviewing a product called HITEC 3000 Performance Additive.

This product is produced by the Ethyl Corporation and from all indications HITEC 3000 will boost octane while reducing the level of automobile emissions. Some countries, such as Canada, are using the product at the present time and find it to be safe and economical. It is my understanding that Ethyl Corporation has completed a very extensive testing program and is convinced that the product is indeed safe and will reduce the overall level of tailpipe emissions while at the same time improving engine efficiencies.

Thank you for your consideration. Please review this product at your earliest convenience.

With warmest personal regards, I remain

Sincerely,

Jim Folsom, Jr.
Lieutenant Governor
